

GLP Toxicology Testing Prices – 2026

Preliminary Results Available within 48 Hours of Experimental End

Acute Toxicology Studies

Acute Oral Toxicity - Up & Down Procedure (UDP) – OCSPP 870.1100 / OECD TG 425

Limit Test 3 to 5 rats\$2700
Each additional rat\$560

Acute Oral Toxic Class Determination – OECD TG 423

Standard study – 6 rats\$2800
Each additional group of 3 rats\$950

Acute Dermal Toxicity/LD₅₀ in Rats – OCSPP 870.1200

Limit Test: (5M + 5F)\$2600
LD₅₀: Each additional dose level of 5 animals\$1950

Acute Dermal Toxicity (Fixed-Dose Procedure) – OECD TG 402

3 rats\$2300
Each additional rat\$550

Acute Dermal Irritation and Corrosion – OCSPP 870.2500 / OECD TG 404

1 rabbit corrosion test\$1375
3 rabbits – 3 days\$2380
(Pricing is for 3 days, each additional day is \$95)

Acute Eye Irritation/Corrosion – OCSPP 870.2400

1 rabbit – 3 days\$1500
3 rabbits – 3 days\$2100
(Pricing is for 3 days, each additional day is \$95)

Dermal Sensitization Buehler Method – OCSPP 870.2600 / OECD TG 406

20 test, 10 naïve, and 4 screen animals\$14100
Each rechallenge\$2100

Guinea Pig Maximization Test (GPMT) – OECD TG 406

20 test, 10 naïve, and 6 screen animals\$17400
Each rechallenge\$3500

Local Lymph Node Assay – OECD TG 442B

1 Test Article\$9700
2+ Test Articles (tested in parallel¹)\$9100
Each additional group (test or control)\$2500
Irritation Test – Quantitative (QIT)\$2200

In Vitro Regulatory Studies

Bovine Corneal Opacity & Permeability (BCOP) – OECD TG 437

3+ Test Articles (tested in parallel)¹\$1800
2 Test Articles (tested in parallel)¹\$2400
1 Test Article\$2900

EpiOcular™ Eye Irritation Test (EIT) – OECD TG 492

3+ Test Articles (tested in parallel¹)\$1760
1 Test Article\$3520

Corrositex® – OECD TG 435

4 to 5 Test Articles (tested in parallel¹)\$1500
2 to 3 Test Articles (tested in parallel¹)\$1700
1 Test Article\$1900

EpiDerm™ Skin Corrosion Test (SCT) – OECD TG 431

3+ Test Articles (tested in parallel¹)\$1905
1 Test Article\$3810

EpiDerm™ Skin Irritation Test (SIT) – OECD TG 439

3+ Test Articles (tested in parallel¹)\$2140
1 Test Article\$4280

Ames Bacterial Reverse Mutation Assay – OECD TG 471

Cytotoxicity Screen and Main Test (5 Strains)\$8300
Confirmatory Assay – 5 Strains\$6300
Confirmatory Assay – 2 Strains\$4100

3T3 Neutral Red Uptake Phototoxicity Test – OECD TG 432

2+ Test Articles (tested in parallel¹)\$4200
1 Test Article\$5600
UV-Vis Absorption Spectrum\$1200

Human Cell Line Activation Test (h-CLAT) – OECD TG 442E

3+ Test Articles (tested in parallel¹)\$7400
1 Test Article\$8900

KeratinoSens – OECD TG 442D

3+ Test Articles (GLP, tested in parallel¹)\$5800
1 Test Article (Non-GLP)\$7400

Custom Protocols Available
ELISA / Cell Biomarkers
ISO 10993 and FDA studies

¹These discounted prices are priced per test article. Additional discounts available. Multiple test articles tested in parallel must be under one project number with the results included in one report. | **NOTE:** Prices are based on the use of MBRL's standard protocols, procedures, and report formats. The change from standard to customized study designs, protocols and/or report formats may result in additional charges.
